Compete Easy Livescore Dressage Reminders for Dressage Scribes

Prior to coming to the Event site tomorrow:

1. Download and install the **Livescore Dressage app** from the Google Play store or Apple App store on the device you will be scoring with.

2. **Login to the app** with the password provided by the show organizer.

3. **Select the show** you will be judging at.

4. **Select the download from cloud button** to download all competitor lists and tests from the Compete Easy Scoreboard.

   The app may take a minute to load the competitors in the background. Once the app has finished downloading, you can close the app.

When you arrive at the show and are ready to scribe:

1. Open the **Compete Easy Livescore Dressage App**.
2. **Choose the Show** you are judging at.
3. **Choose the class** you will be judging first.
4. **Choose a competitor** to score.
5. **Close the first movement and select the gear wheel at the top right of the screen and select whether you will scribe with a keyboard or stylus.**
6. Click on the first movement in the test to start scribing.
7. **Enter comments and movement scores** for a movement and **click Next** to move to the next movement.
8. **Errors of Course** (off course) are scored by selecting Error 1, 2 or 3 (for errors in the same movement)
9. **Errors of Test** (voice) are scored by entering a Penalty with a reason in the Penalty comment box.
10. **Tests are not considered final until signed by the judge.** Incomplete tests cannot be signed.
11. **If you lose wifi or data connection, just keep scoring** – the system will pull in tests when the connection resumes.

   The system will do the rest and the scorer will let you know if there are any issues!
